Enterprise Mobility

PM80

User Manual

User Manual

Please note your phone is battery-embedded design with removable battery and battery cover. Unauthorized personnel are strictly prohibited from disassembling the phone. Make sure to use only the power adapter (5V 2A Output AC/DC) that came with PM80.

In case your phone does not work as expected, you are strongly recommended to restart it by pressing and holding the power button for at least 12 seconds until the startup screen appears. If your phone has encountered a serious error and cannot be recovered, you should reset your phone to factory settings by using the menu, either “Backup & Reset”, or “Factory Reset”. For more details, please refer to “Factory data reset” section on page 44

Note: Please be cautious while performing the factory data reset. Because this will erase personalized settings and data saved in your phone, such as SMS, Contacts, Music, etc.

www.sar-tick.com

Body-worn Operation

This device was tested for typical body-worn operations with the front & back of the phone kept 0.2 inches (0.5 cm) between the user's body and the front & back of the phone. A minimum separation distance of 0.2 inches (0.5 cm) must be maintained between the user's body and the front & back of the phone. Any belt clips, holsters, and similar accessories containing metallic components may not be used. Body-worn accessories that cannot maintain 0.2 inches (0.5 cm) separation distance between the user's body and the front & back of the phone, and have not been tested for typical body-worn operations should be avoided.

PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

Turn On/Off PM80

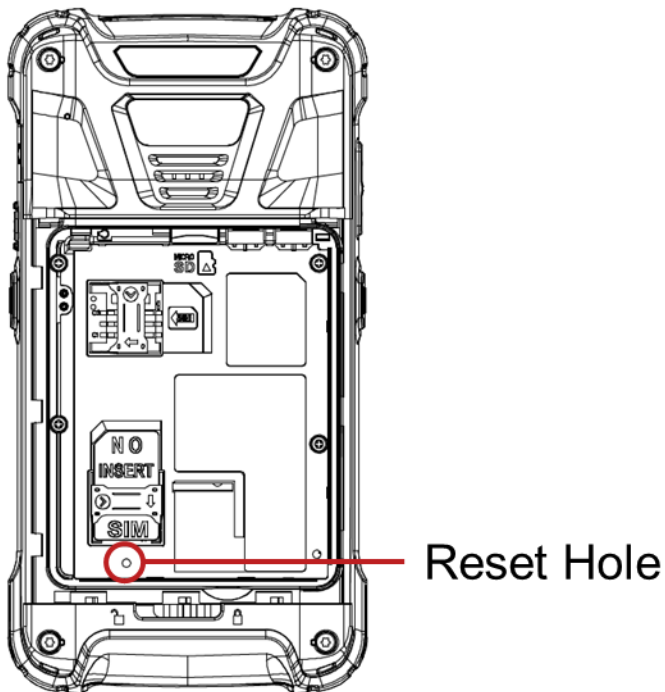

Getting Started

Turn On

1. Press and hold down the “Power Key” for a few seconds.
2. When PM80 enter to the boot mode, it will display “SMART BEYOND RUGGED” logo with short vibration
3. Release the “Power Key” and wait until PM80 finish booting

Note: If you cannot turn on your PM80, try below steps

- To turn on PM80, battery needs to be charged certain level. Please charge first
- Press and hold the “Power key” for 12 seconds to force reboot
- Press and release the “Reset Hole” and then turn on PM80 again

Turn Off

1. Press and hold the “Power Key” until you see the power menu
2. Among the menu, tap “Power Off”

Hot swap the battery

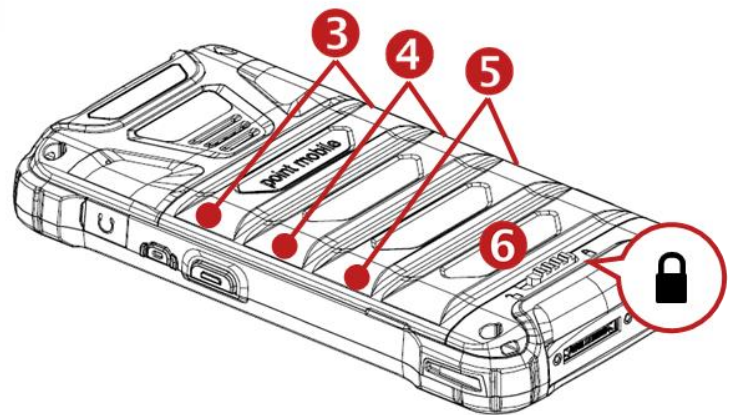

Getting Started

When battery level is low, you can replace the battery without turning off and on PM80.

- Remove the Battery and replace to another one.

- Make sure the battery cover closed firmly.

- Press the Power Key to use PM80 again.

Use a keypad

Learning the basics

Power key

Press

- Lock the screen / Light up the screen.

Press and hold

- Display the power menu “Power Off / Reboot / Airplane mode”

Press and hold for 12seconds

- Forced to reboot

Press the “Power” key and “Volume Down” key together

- Screen capture

Volume keys

In general

- Adjusts the ringtone volume or “Mute” the ringtone of an incoming call.

In call mode

- Adjusts the earpiece or headset volume.

In Music / Video / Streaming

- Adjusts the media volume.

In camera preview

- Take the photo by pressing Volume Up or Down key.

Scanner Triggers

When “Scan Wedge” mode is activated

- By pressing, PM80 scan the barcode.

Using a keypad

Learning the basics

Front panel

Recent Apps key

- Press to see recently used apps.

Home key

- From any apps or screens, press to return to the Home screen.

Back key

- Press to go back to the previous screen, or to close a dialog box, options menu, notification panel, etc.

Function key (Programmable)

- Press to run the function or the app. You can set **EmKit - Program Buttons**

Use a touch screen

Learning the basics

Touch

One-finger press

Double touch

One-finger press, lift, one-finger press, lift for “Zoom in”

Long press

One-finger press, wait, lift for “Select an item”

Drag, Swipe, or Fling

One-finger press, move, lift for “Scroll” or “Tilt”

Long-press drag

One-finger press, wait, move, lift for “Pick up and move” or “select multiple items”

Use a touch screen

Learning the basics

Scroll

Vertical or horizontal swipe in a single direction

Pinch Open & Close

Two-finger press, move outwards and inwards, lift for “Zoom in and out”

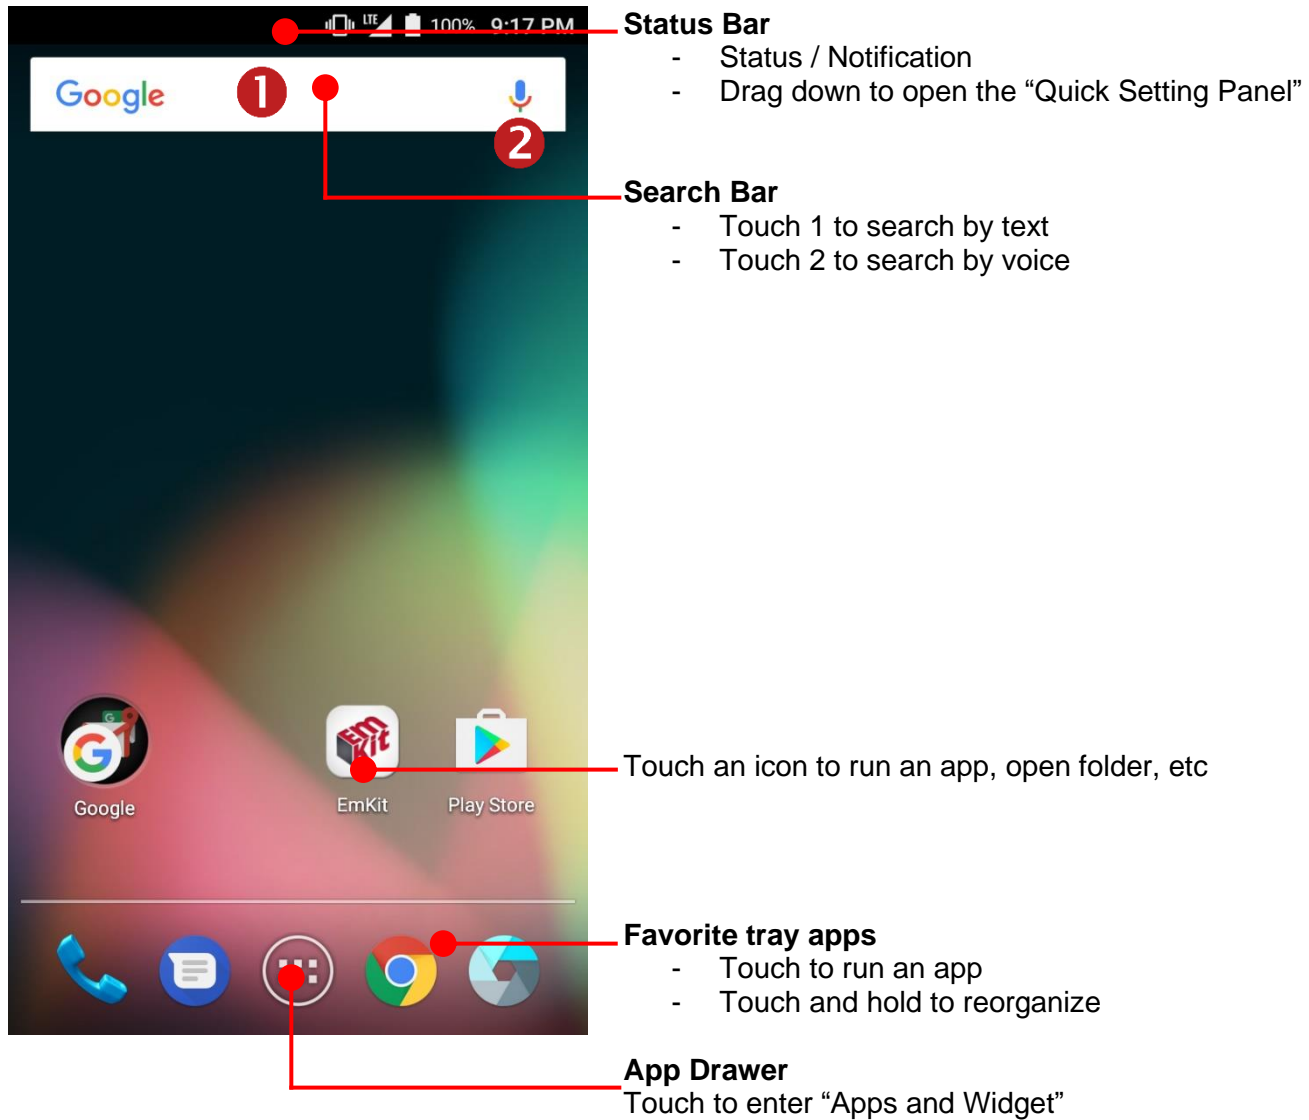

Rotate

When PM80 is turning sideways, screen orientation is changing

Home Screen, Apps and Widget

Learning the basics

Home Screen, Apps and Widget

Learning the basics

Remove the app icon from home screen

- Long press the app icon and then drag it to the "Remove" area and then release

Create "App Folder"

- Long press the app icon to other app icon. This will create the "App Folder"
- To set the folder name, touch the "Unnamed Folder" and rename it

Home Screen, Apps and Widget

Learning the basics

Notification panel

When there are notifications from the Android (system) or the App, you can check details by drag down the “Status Bar”.

Quick setting panel

You can access “Quick setting panel” by drag down the “Notification panel”. You can enable / disable functions or change modes easily.

Home Screen, Apps and Widget

Learning the basics

By touching the “App drawer” icon,  you can enter to the “Apps” and “Widgets”

All installed apps are listed in the “Apps” tab, alphabetically

- Tap app icon to run.
- Long press, specific app icon to place to the “Home Screen”.

All available widgets are listed in the “Widgets” tab, alphabetically.

- Long press, specific widget to place to the “Home Screen”.

Status & Notifications Icons

Learning the basics

Status icons

	GPRS connected		GPRS in use
	EDGE connected		EDGE in use
	3G connected		3G in use
	4G connected		4G in use
	Signal strength		No signal
	Roaming		Airplane mode
	No SIM card installed		
	WLAN is on		Connected to a WLAN network
	Bluetooth is on		Connected to a Bluetooth device
	Battery is full		Battery is partially drained
	Battery is low		Battery is very low
	Battery is charging		
	GPS is on		Alarm is set
	Speaker phone is on		Headset connected
	Vibrate mode/ Mute		Phone mic is mute

Status & Notifications Icons

Learning the basics

Notification icons

	Missed call		New SMS or MMS message
	New Email		Connected to VPN network
	Upcoming event		Screenshot captured
	Preparing SD card		SD card removed, unexpectedly
	OTG device connected		
	File uploaded		File downloaded
	There are more notifications		Other input method available

Make a call

Learning the basics

Touch  icon in the Favorite tray apps

Slide to access the “FAVORITE”, “RECENTS” and “CONTACTS”.

- To make a call from recent call list or missed call, select “RECENTS” tab
- To make a call from your contact list, select “CONTACTS”

Touch to use a dialer

Suggested phone number(s)

Phone number can be saved to “CONTACTS”

Touch and hold the dial pad #1, to access voicemail.

Make a call

Learning the basics

You can answer or rejecting a call by sliding the phone icon

Slide the  icon to the right direction in order to answer the call

Slide the  icon to the left direction in order to reject the call

Slide the  icon upwards to reject the call and send a preset message to the caller.

Tip: To mute the ringtone volume of an incoming call, keep press the “Volume down” key or turn your PM80 over.

Add to a contact

Learning the basics

Touch  "App Drawer" icon and then  icon

CREATE A NEW CONTACT

- You can manually create the new contact

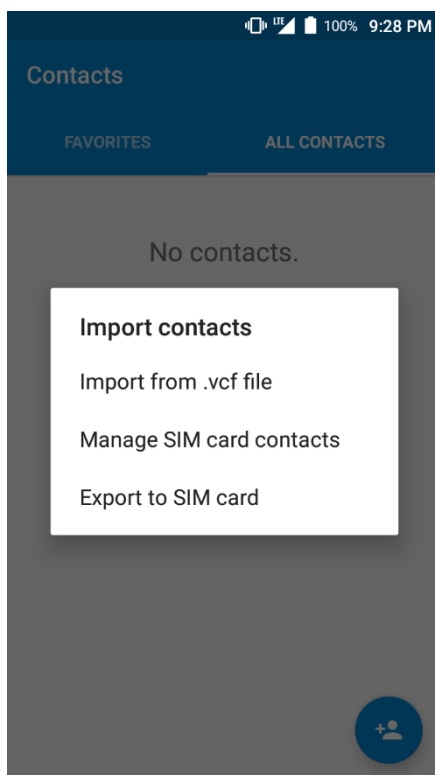

SIGN IN TO AN ACCOUNT

- You can sync with your contacts in the Google account.

IMPORT CONTACTS

- You can import contact in the storage (.vcf file) or SIM card

Touch to add a new contact

Send a message

Learning the basics

Touch  icon in the Favorite tray apps

Touch to use a dialer

Touch to type a name, phone number or email

Suggest contact display here. Touch “Contacts” to compose a message

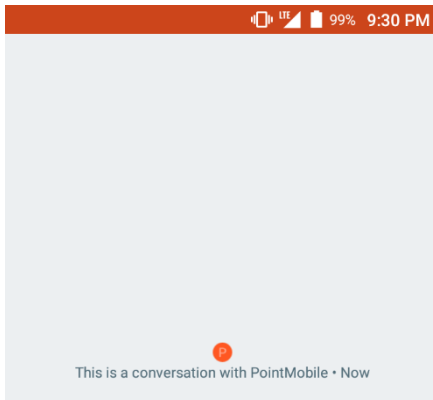

Send a message

Learning the basics

Your message display here

Touch to send the composed message

You can attach photo, saved picture, voice or location

To take a photo, give access to Camera

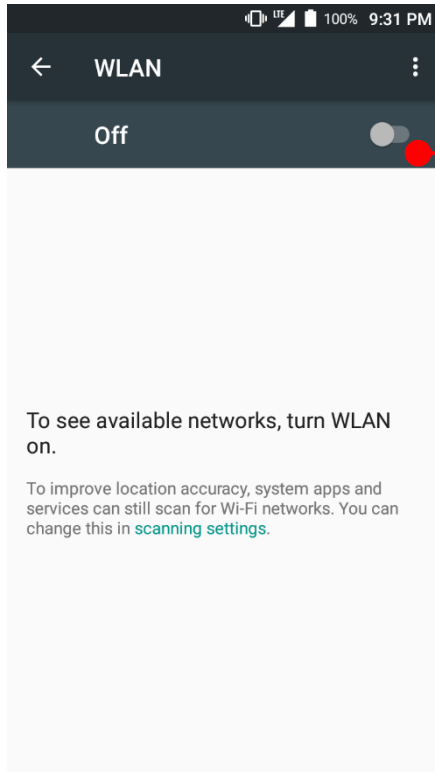

ALLOW

Note: You may allow granting “Message App” access specific app or service.

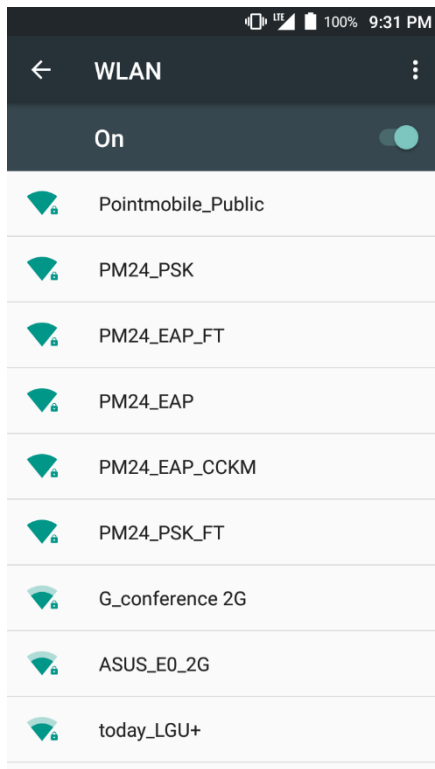

Connect to your Wi-Fi network

Learning the basics

Touch  "App Drawer" -  "Settings" and then "WLAN"
Touch to turn On / Off the W-Fi

You can see nearby Wi-Fi network. Each AP's SSID information listed by signal strength

Icon means: Open Wi-Fi network. You don't need to enter the password

Icon means: Secured Wi-Fi network. To connect this Wi-Fi, you need to enter the password

Connect to your Wi-Fi network

Learning the basics

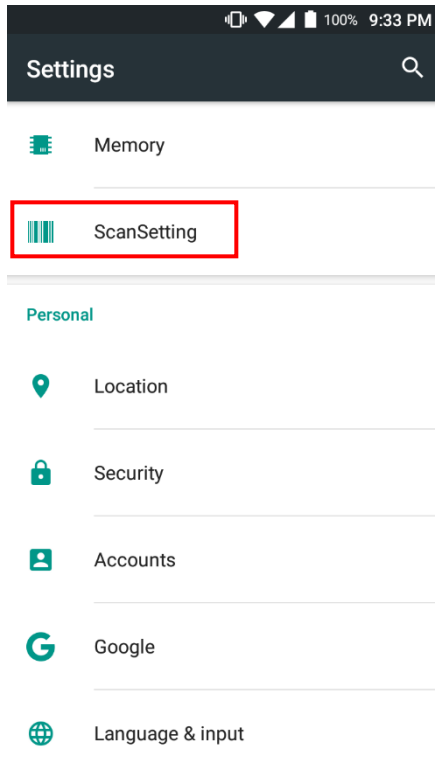

Touch SSID, which you want to connect.
To connect to secured network, enter the password

Your PM80 is obtaining the IP address from selected AP

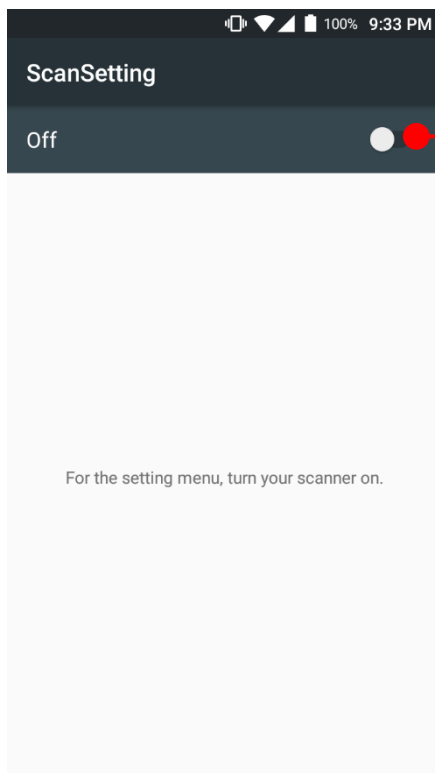

Use a Scanner

Scanner Settings

Default setting of Scanner is “Off”
To use the Scanner,

- Touch  EmKit and then “ScanSetting”
- Touch  “App Drawer” -  “Settings” and then “ScanSettings”

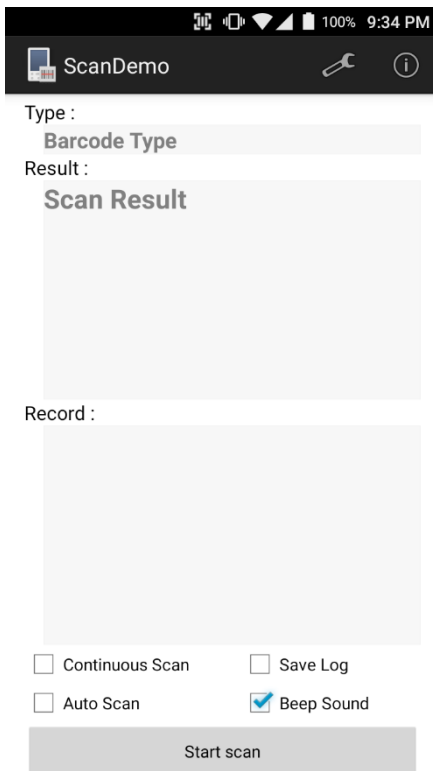

Touch to turn on the Scanner

Use a Scanner

Scanner Settings

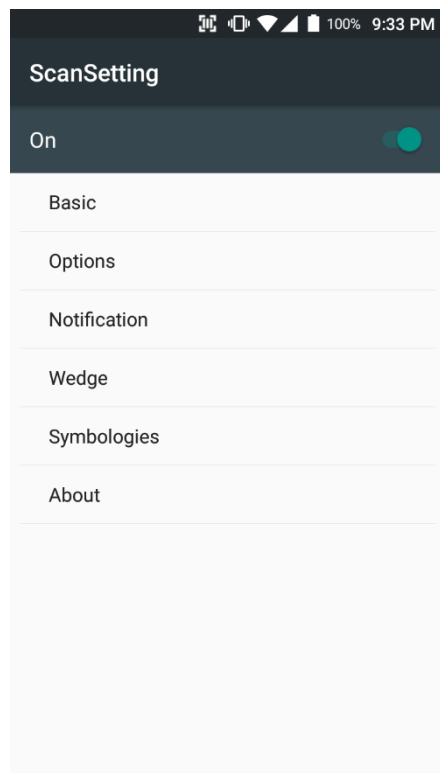

Now you can see “Scanner” icon in the “Status Bar”

Note: When “Scanner” turned on, you can scan the barcode with “ScanDemo” in the EmKit

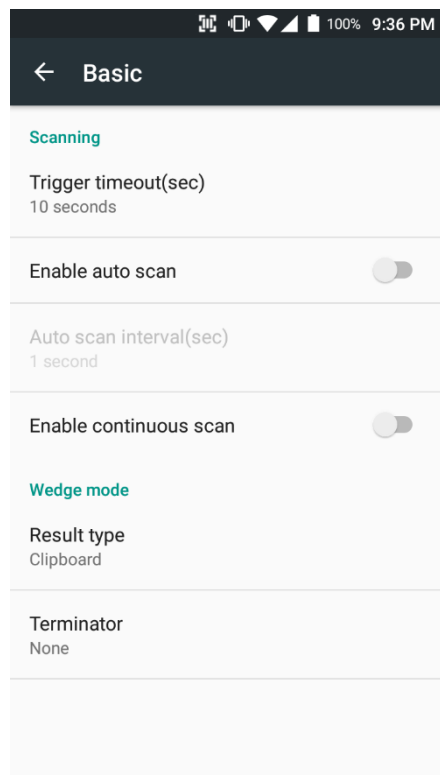

Use a Scanner

Scanner Settings

Scanner setting details

Scanner setting consist with “Basic”, “Options”, “Notification”, “Wedge”, “Symbologies”, and “About”

In the “Basic”, you can set “Scanning” option and “Wedge” mode option

In the “Scanning menu”, you can change Scanner’s trigger time out and set “Auto scan” & “Continues scan”

In the Wedge menu you can change, decode scan data’s result type handling “User Message”, “Keyboard Event”, “Clipboard’ or ‘Intent Broadcast’. Also you can set “Terminator” – “Space”, “Tab”, “LF” or “Tab & LF”

Use a Scanner

Scanner Settings

In the "Wedge", you can enable / disable "Barcode ID" and "AIM ID", set "Group separator", "Prefix" & "Suffix" and "Character set"

Use a Scanner

Scanner Settings

In the “Symbologies”, you can enable / disable specific barcode.

By touching each “Symbology” name, you can set detail option.

Use a Scanner

Scanner Settings

In the 'About', you can check your Scanner's information and restore Scanner's settings to default

Tip: By plug PM80 into the "Gun Handle", you can start to scan with "Trigger" button

Scan a Barcode

Scanner Settings

Example of good Barcode reading

Idle barcode scan
Please aim the middle of barcode

Even you aim the barcode slightly upper or down area or angle is slightly tilted, you can read the barcode

Scan a Barcode

Scanner Settings

Example of bad Barcode reading

If you aim the barcode wrong direction or tilt too much, you can't read the barcode

If you aim part of Barcode or aim two barcode together, you can't read the barcode

IC Card

Read a Credit Card

To read an “IC Credit Card” with PM80, please insert the card to the “IC Card Pocket”. IC chip should face the front side

IC Card

Magnetic Card

Read a Credit Card

To read a “Magnetic Credit Card” with PM80, please slide the credit card to the “Card slot” Magnetic bar should face the front side. You can read the card, bi-direction

Magnetic Card

Front side of the Card
Can read bi-direction

OS Image update from a Storage

OS Update

To update OS image, copy or place OS image file into the root folder of “Internal Storage” or “External Storage”

Touch  “App Drawer” -  “Settings” and then “About phone”

Touch “System Updates”

OS Image update from a Storage

OS Update

Your PM80 will check storage and display available OS image

Touch "Update" button

By touching the "CONTINUE" button, your PM80 start to update the OS image. During this time, you cannot use your PM80. Please save the data before start, the OS update process.

OS Image update from the FOTA

OS Update

Tap  icon for the advanced option

Touch "FOTA Client"

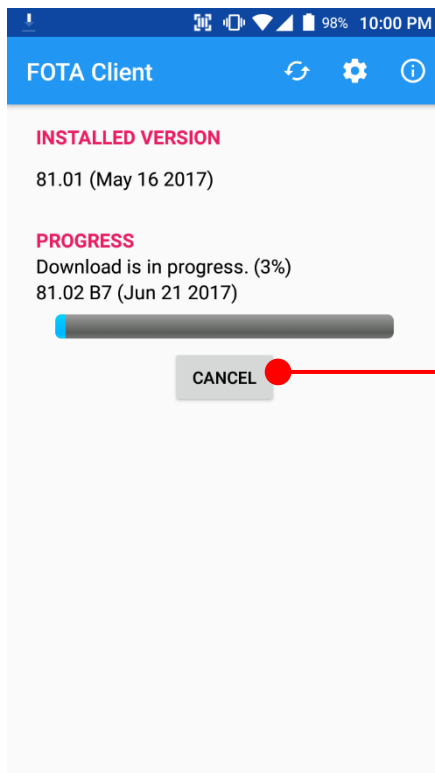

OS Image update from the FOTA

OS Update

PM80 will compare the OS image between FOTA server and current OS image. If there is newer OS image in the FOTA server, FOTA server will suggest downloading.

Touch "OK" to start download the image in the FOTA server

You can cancel OS image download process

Note: Default OS image download setting of FOTA Client is "Download over Wi-Fi only" Please connect to the nearby Wi-Fi network for FOTA service

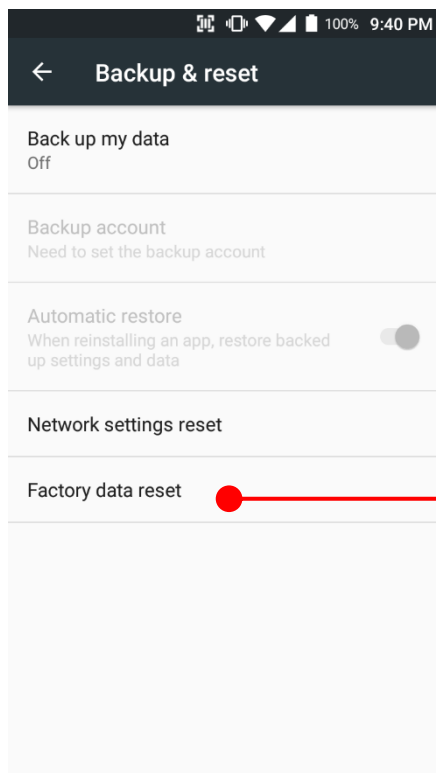

Factory data reset from Settings

Factory data reset

When your PM80 system is unstable and abnormal behavior occur but could not recover by rebooting, you may need to “Factory data reset” your PM80

Touch  “App Drawer” -  “Settings” and then “Backup & reset”

Touch “Factory data reset”

Factory data reset from Settings

Factory data reset

Please note, all apps and data in the internal storage will be deleted and restored to "Factory default" and this process cannot "Undo"

Touch to start "Factory Reset" process

Touch to confirm erase of "Apps and Data"

Force Factory data reset

Factory data reset

Force Factory data reset your PM80

You can perform “force” factory data reset your PM80. When your PM80 turned off, press “Power” + “Volume up” + “Home” button all together. After short vibration from your PM80, you may release the buttons.

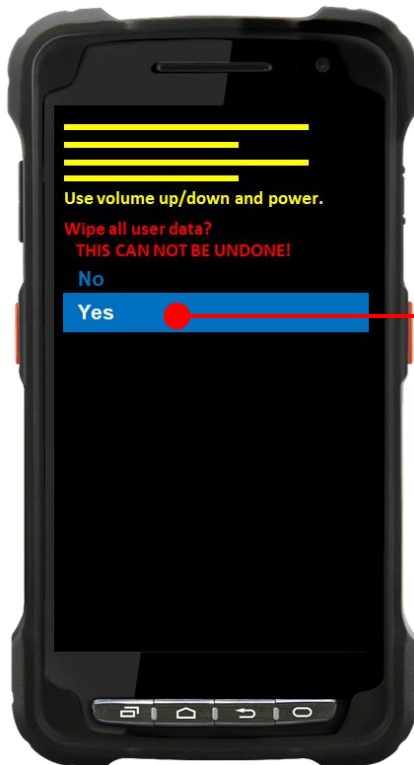

PM80 enter to the “Android Recovery” mode. In this mode, “Volume up” is “Move Up” in the menu tree and “Volume down” is “Move Down” in the menu tree. “Power Button” is “Select”

Force Factory data reset

Factory data reset

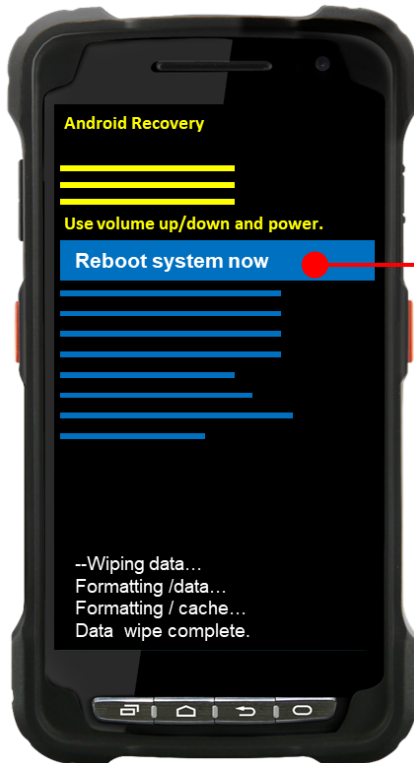

Select "Wipe data/factory reset"

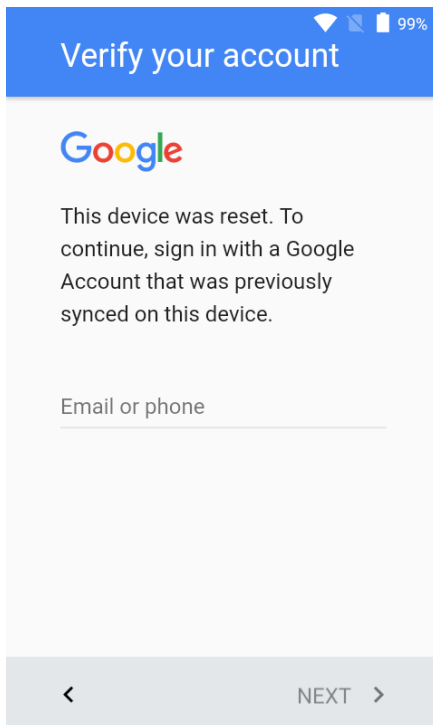

Select "Yes" to perform the "Factory data reset"
After that, your PM80 start wiping the data

Force Factory data reset

Factory data reset

After data wiping, please select “Reboot system now” to finish the “Force Factory data reset” process

After Force factory reset, if PM Android Device locked by Factory Reset Protection, then please enter to Fast Boot mode and execute command

- fastboot erase config
- fastboot reboot

Note: Factory Reset Protection (FRP) is a security method that was designed to make sure someone can't just wipe and factory reset your device if you've lost it or it was stolen

Enterprise Mobility Kit

EmKit

Enterprise Mobility Kit – Truly, what Enterprise needs

Point Mobile announces new software solution – called “EmKit” is new software solution for enterprise mobility users. Our every Android device shall have EmKit pre-installed and every user can access them for free of charge*. EmKit offers truly-value-added advantages, for enterprise users, which are against consumer-centric & non-customizable smartphones. Every solution in EmKit is 100% compatible with Point Mobile Android GMS certified devices.

* Necessary MDM license subjects upon individual subscribers

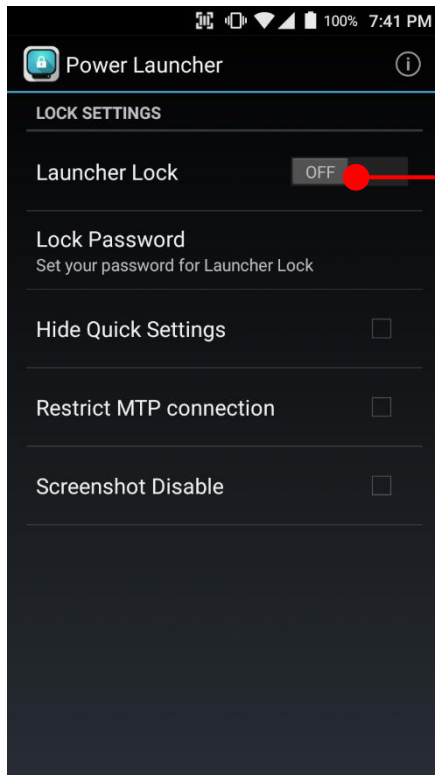

EmKit consist with “**EmKit Secure**”, “**EmKit Remote**”, “**Emkit Tools**” and “**EmKit Demos**”

- EmKit Secure “Lock Your Device”
- EmKit Remote “Mobile Device Management”
- EmKit Tools “Smarty Tools Ease Enterprise”
- EmKit Demos “Friendly For Programmers”

EmKit Secure

EmKit

Power Launcher

You can lock your Point Mobile Android model's **Home Screen** and limit to access app drawer or specific function. This function as known as **Kiosk mode**.

- Hide Quick Settings : Limit to access quick setting panel
- Restrict MTP connection : Limit to access Point Mobile Device's MTP connection
- Screenshot Disable : Disable screenshot capture in OS level

Restriction feature will be keep added.

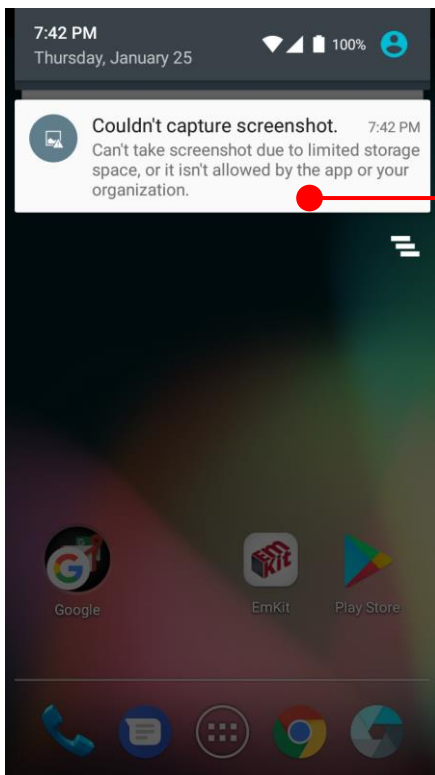

After restriction feature check, switch **Launcher Lock** to On.

EmKit Secure

EmKit

When Power Launcher is locked, operator could not access to **App drawer**.

Example of **Screenshot Disable** restriction.
